IMPORTANT GUIDE

1. When used for milk, tea, coffee, it is recommended to drink it on the same day and clean it right afterwards. This method minimize bacteria growth and prevent stain and smell build up on the cap.
2. Do not use excessive force when closing the lid. Air and external pressure might cause porcelain to break. When opening or closing the lid, open the center silicone plug to release pressure.
3. To keep food/ beverage hot/cold for longer, fill in product with hot/cold water and let it steep in for 5-10 minutes before using.
4. Do not place product near fire or direct heat.
5. Do not place sharp objects inside the porcelain to avoid porcelain damage.
6. Product can be put inside the fridge, but not freezer to prevent rupture.
7. Porcelain and silicone parts can be put in microwave oven. Do not put the tritan cap (applicable for 302 only) in microwave oven.
8. This product is dishwasher safe.
9. Avoid dropping and knocking product porcelain edges as it may cause breakage.
10. Keep product out of children's reach. Parental guidance is needed.

FIRST TIME USE GUIDE

Before using it for the first time, it is advisable to rinse cup with clean water . Next, pour hot water inside the cup, let it soaked for 30 minutes and let it air dry.

CLEANING GUIDE

Use a soft sponge and chemically neutral dish soap for cleaning. Do not use metal scrub or any excessive rough scrub to avoid damaging porcelain surface.

Pro Tips:

For **stubborn stains** , add a little vinegar, baking powder or citric acid, dissolved in warm water. Let is soaked for 6-12 hours. Rinse with clean water.

WARRANTY INFO

SWANZ warranty covers:

- Disintegration of silicone
- Non-washable stains on porcelain
